Best Practices

To keep your models in best working order we recommend the following:

1. Store your model in a cool, dark, and low dust location.
2. For models containing or exposed to water, wipe down excess, leave all connectors open and allow components to dry completely before storing.
3. If applicable, apply Silicone Finishing Powder to reduce tack and dust accumulation.
4. If applicable, flush or wash models with water to remove lubricant and debris.
5. Work on a flat surface to prevent the model from slipping.
